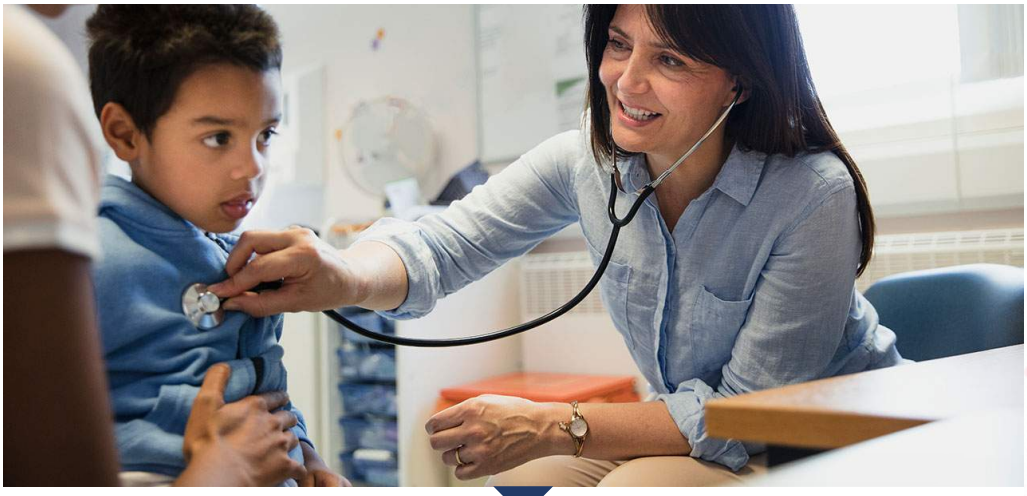
Welcome to Ayurvedic Clinic

Autoimmune

Ayurveda can effectively treat autoimmune diseases such as arthritis, lupus and psoriasis. Our Ayurvedic centre provides customized treatments to cleanse the body, purify the blood, harmonize the doshas and boost the body's natural immunity. With herbal medicines, dietary alterations and deep cleansing we hope to cure from the core - naturally and holistically!

Cardio

Good health of the heart ensures overall well-being. Ayurvedic clinic provides natural cardio care with time-tested herbal medicines, effective panchkarma therapies, and lifestyle management. Ayurvedic treatment for heart includes improving the muscles of the heart, blood circulation, and the reduction of stress. Go holistic and save your heart with Ayurvedic science.



Child Health

Kuamarbhrutya is a branch of Ayurveda dedicated to the care of children. Because the health of a child is based on the health of the mother, Kaumarbhrutya also concentrates on specific aspects of the mother's health. The main concerns in child health are immunity, nutrition, digestion, and metabolism. Ayurveda also treats special cases of respiratory, cutaneous, and neurological problems.
